Chaucellor Ellis and Lloyd Howard, of the Maryland State Board and many other well known physicians.
The number of members and officials already reported for attendance exceeds the number of sittings in the hall of the House of Delegates and it has been found necessary to secure the use of Mezart Hall. The business services begin Wednesday morning. The Conference will be in session four days.

Expose of the Stewart Grave Robbery.

By Telegraph to the News. NEW YORK, Nov. 16. - The Times reaffirms yesterday's statement thathe rolice have knowledge of the whole gang of Stewart's grave robbers. A man named Mahony, formerly attached to the Wechawken cemetery, did the principal work. He fled South on the morning of the robbery, but is now shadowed, and can be arrested at any moment. The body was taken to Weehawken, to a notorious drinking saloon, and kept by a man named Murphy. The remains have since been removed, the authorities refuse to say where. Two men were arrested yesterday, belonging to the gang. One is described on the police records as Harry Vreeland, of Brooklyn. One man is not under arrest because he became frightened and voluntarily made a full confession.

Now that the question for the modfication of the Suffrage law has been broached in the Spanish Congress, lively time may be expected in the discussions upon the bill, which will find in the Congress many sanguine supporters as well as opponents. RETRENCUMENT A NECESSITY.

GOLDSBORO, Nov. 15th. The position of the NEWS is right. Times are hard, taxes are high. Governments, like individuals, get extravagant in flush times. Individuals must retrene now and so must city, county, State and National governments. Individuals may hesitate to retrench for fear of being called stingy. Popular leaders and papers may he sitate to advocate retrenchment for fear of being called demagogues. But it is right. It is that or worse. The latter made their business known. The dector told them that as he did not know where the body was, if they would be at a certain place within an hour be would have the required information. They were direct d to the spot, but warned to be very careful, as the grave was very near to that of Thomas Patterson, father of W. D. Patterson, Superintendent of the Workhouse, and as he had been buried for a year his corpse would be of no use. The robbers proceeded to the grave, and digging down, applied their usual test—that of trying the ear; if this pulls off, the body is too far decomposed to be of any use. The ear came off and a horrible stench arose, which made all sick, and they decided to retire and get something to drink. When they returned, it was thought to be so late that it was not practicable to open another grave, and so Patterson's grave was refilled, and the party returned to the city. Su-perintendent Parterson has just been investigating this whole case, and upon openining his father's grave he found the ear missing from his father's corpse as described, and the coffin broken open. Kitchia's Actual Majority. The Tarboro Southerner says: In this District two precipcts were thrownout in Craven, six in Edgecombe and one in Halifax for non-conformity with the law. Had they all been counted, it is claimed, Kitchin's majority would have been about 115.

People and newspapers differ about the primary election in Wake county. For instance the Henderson county Courier does not agree with the Raleig Observer's prolific annonymous correspondents. The Courier says: "As the time approached, however, Merrimen's friends began to hear it thunder, and attempted, and finally succeeded by a game of "brag," in breaking it down."

Stokes County.

The Danbury Reporter, an exceptionly well edited paper, is proud of the record Stokes county made in the Con. gressional election: Notwithstanding the result of the August election, we claim for her a place of prominence and distinction in the political galaxy of the District. Bad management and the willful perversity of socalled leaders brought defeat to the local Democracy three months ago; but it is an immutable law of nature that effect will follow cause. But the late Congressional election clearly demonstrated the fact that Radicalism and carpetbaggery have lost their grip upon our people. Within two years the figures show that two hundred and seventy votes have been added to the Democratic strength.

Personal.

The Tarboro Southerner says the next Governor of North Carolina will be an Eastern Carolinian.

The Goldsboro Mail sees no cause for "a long spell of the blues over Tuesday's election."

Durham Tobacco Plant: Joe Torner is a wolf in sheeps clothing. Will Democrats longer encourage him?

A piously inclined Danville man stays away from church on account of his shabby clothes. This moves the unsophisticated editor of the Reidsville Times to-say "there is too much fashionable religion.

The next United States Senate will elect a Democratic Secretary. The position is one of great responsibility. Doubtless the incumbent will be from the South. The South can offer no better man than Hon. A. M. Waddell of North Carolina.

Learning Wisdom from Rip Van Winkle.

Georgia, the Empire State of the South, learns wisdom from North Carolina legislation, and has established a department of agriculture. Gov. Colquit in his message to the Legislature comments upon the report of the Commissioner of Agriculture of that State: The department has proven beneficial to the agricultural interests of the State, and has undoubtedly made the State reputation abroad for farming progress. The collection of farm statistics and planting experiences has educated the farmers in improved methods of agriculture, in the use of labor-saving implements and in the general planting of better seeds. The inspection of fertilizers has saved a large amount of money to the farmers in the exclusion of inferior commercial manures from our markets. The railroad statistics of the sums spent for foreign provisions has shown the dependence upon other States, and the large amount spent abroad for farm supplies. This information has stimulated the production of food crops to the great benefit of the State. During the last year, the receipts for the State Treasury from the fees for the inspection of fertilizers under the new system have not only paid the expenses of the Department of Agriculture, but left a very considerable balance in the Treasury. The gross amount from inspection in 1878 was \$45,235.77; expenses of inspection, \$11,150.40, leaving net balance of of \$34;085.47. Deducting from this \$14,700, the cost of the Department of Agriculture, there remains \$19,285.47 in the Treasury of income for the State from this source.

Thos. L. Clingman.

It is neither fair to the distinguished utobiographer nor to the members elect of the General Assembly to charge him with "electioneering" in distributing the "writings and speeches of Thomas L. Clingman." Notice after notice was served on the people last summer through the columns of the Raleigh Observer that he was not a candidate for the United States Senate. With this brief explanation we print what the Charlotte Observer says of his canvass: Gen. Clingman is making a big effort to bolster himself for the position of "dash horse" in the race for United States Senator. It is said that he is distributing to members elect of the next General Assembly bound copies of "The Speeches and writings of Thos. L. Clingman," second edition, with appendix. The Senator elect from Rowan, and Davie, and the members elect to the low house from Rowan have each, our Salisbury correspondent informs us, received a copy of this book, postage prepaid (19 cents on each copy), with a printed label; and the presumption is that every member elect throughout the State is being thus plied. The book contains the General's political record of twenty or twenty-five years ago, with some modern essays and addresses.

The Great Southern Work. The intelligent Representative mis-

takes the lesson of Tuesday's election if he does not see in the small Democratic majority in the 46th Congress the peril to all Southern enterprises now pending before Congress. The great Southern work is the early completion of the Texas Pacific Railroad. What can be done must be done at the coming session of Congress. We subjoin some timely reflections on this subject by the Greensboro Nerth State: In the interest of the South, the most important question to come before Congress this winter is that of premoting the early completion of the Texas & Pacific Railway, or some railway upon the line for which that Company holds the right of way. The zeal in behalf of this enterprise will be sharpened by the news which comes by the way of Washington that the Central-Southern Pacific ring, in the apparent confidence of controling Congress, have belied all their promises to the Southern people. and have made an alliance with the Atchison, Topeka & Sante Fe Railroad Company, by which the so-called Southern Pacific Road of California is to be turned North to connect with the other road at Sante Fe. and thus cheat the Southern States of the transcontinental line it has been so long promised by Huntington & Co. The new combination is simply another Northern line, controlled by the Huntingtons and Jay Goulds, who now control the defiant Pacific Railroad ines. For years the Huntington party has been busy in the South working up a sentiment in behalf of their socalled Southern Pacific Road which was to be built through on the 32d parallel. By such means t'ey have delayed the proposed Government aid to the Texas & Pacific road until the Central Pacific ring could get control of the California end of the line. Having got that control, they deliberately repudiate their promises, and propose to rob the people of the South of their right to an independent transcontinental road, as they have robbed the United States Government and the business of the country, to build up and perpetuate their bloated monopoly. For a long time this combination of the Southern Pacific and the Sante Fe companies has been kept a secret .- Probably it was made long before the Southern Pacific reached the Arzona border. But

The abnormal condition of affairs is perplexing problem. Let us philosophize and sermonize a little this morn-

First-The war called men from their industries and made them con- | tof one per cent. di idend. sumers of the industrial productions of others, and also the destroyers of

Second-The suspension of specie payment created a host of gold gamblers who gloried in their animalism, per cent., from the United States Treasury upon the deposit of Government bonds, collateral. The people have to pay the interest on the bonds, and when wasting money from the banks they are obliged to pay, indirectly, 8 to 10 per cent., for the accommodation by leaving dead balances in deposit, aggregating 14 to 16 per cent. interest, including that paid on the bonds.

The suspension of specie payments cost the country more money during the war and since than all other measures put together. It is marvelous how the people could possibly endure the exactions imposed upon them, the heavy drafts to pay the interest and half of the principal cost of the war, and the extortions of gold gamblers and money jobbers.

Third-The reaction of the war, together with the usual periodical business revulsion, resulting from excessive manufacture, overtrading and speculation, conspired to make the times two fold more oppressive than any former revulsion since the war of 1812.

Fourth-Watering stocks until they were so weak that they dissolved, and the administration of trust and life funds, by means of which honest people have been fleeced of their savings Fifth - Intemperance, extravagant

living and political malfeasance. It is therefore no wonder that the nation has been paralyzed in business, and demoralized in principle, and that idleness, want, dissipation, theft, forgery, suicide and murder have followed in train. People have become distrustful of each other and seemingly have no confidence in themselves, moving about in a confused state inquiring one of another, when will the times change? Echo answers, When? Righteousness replies, When men learn "as ye would have others do unto you do you so even unto them."

To produce permanent prosperity, we

require : First-A system of finance that will afford a circulating medium of exchange which will command the respect of all men everywhere, a United States currency. The people's money on the face of which it shall declare that, we, the people of the United Stat's of America, by our representatives in Congress assembled, do hereby promise to pay to the bearer on demand -dollars in coin, exchange, produce, or

United States revenue dues, the payment whereof being secured by pledge of the honor and wealth of the nation and collectable by direct general taxation of a'l real and personal estate thereunto belonging. Pa-sed by act of Congress, January 1, 1869, signed by the Secretary of the Treasury, coun tersigned by the Register, etc. Such currency to be issued in exchange for the outstanding bonds and thus stop the outflow of interest from the United States Treasury, and transfer the respensibility of interest to individual borrowers who would willingly pay legal interest therefor; keep it in circulation and sustain general businessculation and sus: ain general business—

Second-Free trade-an open market, no class protection, allow imports free; foster exports, instead of retaining the surplus at home; seek a market by export, the world is open to receive hem; allow the demand at home and abroad to regulate the supply and we shall have a steady market and constant employment. All labor not employed in the cities and manufacturing and mining districts should repair to the country and buy or hire land and find their means of subsistance by working it-the most independent of all employments. The United States cannot gnment afford to give every man a farm; that would debase the recipient to pauperism would debase the recipient to pauperism and a forfeiture of his manhood and

American independence. Third-Free banking in exchange. deposits and discounts. Our present system of banking is a delusion and s snare. Ask a bank officer of to day how much coin is required to conduct banking business safely, and you will be told that 25 per cent, of coin to 100 per cent. of banking notes would be ample to redeem all the notes that would be offered. But suppose all of the notes outstanding should be presented at once? Oh, that is impossible in the natural course of business. But all of them must be redeemed sometime, and when your 25 per cent. coin is gone how will the remaining 75 per cent. be redeemed. They will have to be returned to the United States Treasry and exchanged for Government bond collaterals Then 75 per cent. since it has ceased to be of so great of your capital is loaned to you for consequence to quict the nerves of nothing, by the United States Treasury especially as the Government or people pay the interest on those bonds. The result should be a unanimous demand, These are the institutions that foster speculation in gold, stocks and goods, the dealers wherein depend upon the banks to float their business and force it beyond the normal demand until the market is overstocked; then the banks cease to afford the needed relief and disaster follows. GURE FOR SCROFULA

FACTS ARE STUBBORN THINGS !

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Seroiula with Mrs Person's father. Mrs. Person lives in Franklinton, or in that section. A child was nor to Mrs. Person, and it had the Scroiula. The doctors gave it up to die. She thought of that feceipt, that was now old and musty, and hid away in an upstairs arawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the winskey, and did as directed to the child. Her child now lives well and hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some scroulous affection on the heel he had been to the Hot Springs in Arkansas, and from there he went to Kittrell Springs. Not in g diq him any good. At Kittel's they tol. him of Mrs. Berson's recipe, and Dr. — wrote to Mrs Person if she cured that South Carolinian her receipt was worth money. And the south Carolinian sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and added if they cured him he would give her five hundred dollars. She sent him directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterward sent Mrs. Person a cheek for twenty-five dollars, and wrote the inost grateful letter he knew how. Bless the se old indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON : The medicine I purchased of you last winter proved of lasting enefit to my son, who was troubled with 27 running sores, some of them quite large, and of a serofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-usy quite sound and healtry. As a Tonic and Blood Punifies it has no requal, doping that you may be spared for many years of usefulnes, it main, very respectfully.

Louisburg, N. C., May 22, '78. AS A TONIC AND ALTERATIVE MOORESVILLE, IREDE: LCo., N. C. MOORESVILLE, IREDELL CO., N. C. Being desirous of adding my testimonial to others, concerning the merits of Mrs. Joe Person's Remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal, I have fairly tested it, and after trying Vegetine. Sarsapafilla, Vinegar Bitters, and various other remedies, I have no hesitation in prodouncing it far superior to any IONIC i have ever used. When I commenced using Mrs Person's Remedy I was very weak. complections allow, and now I am WELL, he spectfully vont friend.

THREE CHILDREN IN THREE and Cotton. The highest market price WEEKS. Mas Joe Person:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all toat is within my power towards getting you patients for treatment of Scroula. I nardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me, Yours truly,

WM. H. ARAFNGTON. MAS JOE PERSON

"It will Cure if Fairly Tested."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting weil. I was treated during that time by three very eminent physiciaus, without any good result. I then went to the National Surgical institute, at Atlanta, cia., and was treated there more than two months, with no better result than my family physicians met with. After I returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties, My sores soon began to heal, and the color of my skin changed as fast athe sores healed. I had not thought of ever getting well again, but my hopes increased, my low sp. ritedness fied before the remedy, and I am now enolying splendid health and a min good spirits. The remedy is mind as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects, It shoulf be taken regularly by all mea is, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure at eady made would commence to retrograde, and for this alone it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fait test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and Lasting onligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am. respectfully,

KITTRELLS, N. C.

My receipt for the cure of Scrasula has been tried by me with the most unprecedented success for the last twelve years, and have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Puriner, it is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, i believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases.

A CASE OF CANCER.

FAYETTYILLE, N. C., Aug. 12, 1878.

MBS. JON PESSON:

Dear Madam—I have been using your Remedy for scrofula overfive mouths as an experiment for cancer. The cancer is of long standing, the drotors have been treating it, more or less, for twelve years, it has taken off my upper fip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if, I could have and the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart. an irregularity in its action. It would miss every the deat for hours, then at other times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely refleved of this, rarely feel it, and then not enough to speak of it. I would recomme d any one sunfering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most profession for the last 12 years and I know of none superior to this. I think your medicine is seasined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and kespectfully.

Post Office Notes. On Sundays the Western mail will on and after to-day close at 2:30 p. m. The office will be open to-day from 3:30 to 4:30 p. m., as usual, but this hour will probably be changed next Sunday. The public have baidly become accustomed to the new mail schedules as yet. They are not so convenient as the others, in some respects, as the principal portion of the northern mail comes in after 9 p. m.

SO. LAWRWICE, MASS., April 30, 1877.

MR. H. R. R. STEVENS:

Sir:—Nome five years ago I commenced taking Vegetine. At that time I had had a shock of Paralysis, and could not walk across the room wi hout assistance. I found great relief from it at first, but discontinued the use of it again, and am now able to do my own work, and am washing to-day. I had taken large quantities of morphine, and was unable to sleep. I have found Vegetine to be a great quieter of the nerves, and after taking it have been able to enjoy a good night's rest. I believe it to be a good medicine, and cheerfuily recommend it to others.

No. I Kingston Court, Lawrence, Mass.

Nervousness, and all deraugements of the nervous system, are usually connected with a disc ased condition of the blood. Debility is a frequent accompaniment. The first thing to be done is to improve the condition of the blood. This is accomplished by taking Vegetine: It is a nerve-medicine, and possesses a controlling power over the nervous system.

ir: Having sold and recommended your medicines for the 1st three years, pernaps you would ask why i should recommend them. I will answer, by saving, that I saw such beneficiar results in a young friend who has been affected with a disease for two years, which was brought on by his own imprudence; and he had baken but one bottle when it showed its power to see essfully fight the evil, so that I have slways recommenced it to young friends with bad blood. If you wish to use this as reference, why, I say you can do so, as I have seen the remedy tried and known it is good.

I remain, yours very respectfully.
